# Preschool

**Our preschool program is a balance of art and fun combined with a kindergarten readiness academic curriculum.**

## Faith Based Learning

**In addition to the academic environment, the children attend weekly Christian based Bible lessons (open to all faiths) in our SBA chapel.**

## Individual Instruction

**In August, the teachers help the children become accustomed to the preschool schedule/structure.**

**In September, the teachers begin to work one-on-one with each student in a fun “game” format related to the unit of study. Strengths and weaknesses are assessed and your child’s progress is noted on a “game” sheet which is sent home monthly.**

## Arts & Crafts

**Students’ art work is showcased throughout the school year. The 4 year old children make several keep-sake books including the Color, Number, Shape Book, All About Me Book and a class book for each unit. Our 3 year olds make an I Know My Shapes Book and My First Book of Colors.**

## Academic Units

**As many as 20 fun and exciting units are presented during the academic year in a form developmentally appropriate for each age group.**

**Each day, in addition to art, a coordinating worksheet is presented. This reinforces the unit and assists in academic instruction. Worksheets in the 3 year old class are introduced after Winter break.**

## Parent Involvement

**Monthly calendars, newsletters, and game sheets are provided to keep parents informed and involved. Spring and fall parent/teacher conferences are offered. There are several class holiday celebrations and field trips. Parents are always welcome.**
